OBJECTIVE

B.Tech CSE student specializing in containerization, cloud technologies, and automation. I seek to apply my technical skills and collaborative attitude in a growth-oriented organization while gaining hands-on experience in DevOps and frontend development.

EDUCATION

- Sasi Institute of Technology and Engineering**
B.Tech - Computer Science and Engineering; CGPA: 9.0 2022 – 2026
- Aditya Junior College**
Percentage: 97% 2020 – 2022
- Narayana E.M School, Neeladripuram**
Percentage: 98% 2019 – 2020

INTERNSHIP EXPERIENCE

- Juniper Networks – AICTE Virtual Internship** Remote
Intern – Networking and Cloud Computing Apr 2024 – July 2024
 - Virtual Lab Simulations:** Configured networks using Juniper routers and switches on cloud-based simulation platforms.
 - Cloud Technology Skills:** Gained understanding of virtual networking, routing protocols, and network automation.
 - Certificate:** Received certificate of completion issued by AICTE and Juniper Networks.

PROJECTS

- HealthAI: Intelligent Healthcare Assistant Using IBM Granite** Remote
AI & Backend Developer – Personal Project Apr 2025 – Jun 2025
 - Project Description:** Developed an AI healthcare assistant using IBM Granite and Streamlit to provide disease prediction, treatment plans, and health analytics.
 - Features:** Implemented patient chat for health queries, disease prediction based on user symptoms, AI-generated treatment plans, and a health analytics dashboard to visualize patient vitals.
 - Technologies Used:** IBM Watson, Streamlit, Python, REST APIs
 - GitHub:** Link
- Online Exam Portal** Remote
Full Stack Developer Apr 2025 – May 2025
 - Project Description:** Built a MERN-based web app for real-time online exams with admin quiz management and student authentication easily.
 - Features:** Secure student registration and login, dynamic quiz creation and management for administrators, real-time question randomization, timer-based exams with auto-submit, and result display after completion.
 - Technologies Used:** React, Node.js, Express, MongoDB, Bootstrap
 - GitHub:** Link

SKILLS

- Technical Skills:** C, Java, Python, HTML, CSS, JavaScript, React.js, of Data Structures and Algorithms
- Tools & Technologies:** Kubernetes, Docker, Git, MySQL, MongoDB

CERTIFICATIONS

- SkillDzire – Machine Learning:** Learned basic Machine Learning algorithms. (Link)
- Deloitte – Data Analysis:** Studied data analysis concepts and industry practices. (Link)
- MongoDB – Backend:** Gained confidence in MongoDB concepts and backend development. (Link)
- AICTE – Data Analytics:** Completed Data Analytics virtual internship offered by AICTE; covered key analytics concepts and industry use cases. (Link)

ACTIVITIES

- Coding Contests:** Actively participated in various competitive programming contests on CodeChef, improving problem-solving skills and logic-building.
- DevOps Workshop:** Attended a hands-on workshop on DevOps tools and practices, gaining exposure to Docker, Kubernetes, and CI/CD pipelines.

ACHIEVEMENTS

- CodeChef:** Achieved highest rating of 1396; solved over 500 problems. (Link)
- HackerRank:** 5 in C and Python; 4 in Problem Solving. (Link)

LANGUAGES

- : Telugu, English, Kannada
